LinkedIn : xxxxxxxxxxxx

SKILLS

- **Languages :** Python, C
- **Web :** HTML5, CSS3, Figma
- **Tools :** Canva, Git, Data Visualization
- **Soft Skills :** Technical Presentation, Mind Mapping, Problem-Solving

INTERESTS

- Mathematics
- Cybersecurity
- Sports
- Travelling.

STRENGTHS

- Coding
- Adaptability
- Visual Mapping
- Team Work
- Clear Communication (Regarding Explanatioin of topics)

PROFESSIONAL SUMMARY

Dedicated Software Engineering student at MIT Academy of Engineering. Passionate about problem-solving and building real-world applications. Currently mastering core computer science fundamentals and modern web technologies.

PROJECTS

Personal Web Portfolio (HTML, CSS)

- Developed a responsive personal website with a custom dark-mode aesthetic.
- Optimized layout using CSS Flexbox for seamless mobile and desktop viewing.

Number Guessing Game (Python)

- Built a logic-based terminal game utilizing random library and conditional statements.
- Focused on user input validation and iterative loop structures for smooth gameplay.

EDUCATION

- *B.Tech in Software Engineering | MIT Academy of Engineering | 2025 – Present*
- *H.S.C (Science) | Modern College Of Arts, Commerce, Science | 2023 – 2025*
- *S.S.C | St. Francis De Sales School | 2023*
